

SANGEAN

DCR-10W Firmware Upgrade:

1. Please download attach file **DCR10-VP02AU.zip** and extract the file.
2. Copy the folder "SWUPGRADE" and its contents onto your SD card.
3. Inset SD card to DCR-10.
4. In any band, press and hold TUNING/•MENU button.
5. Rotate TUNING encoder to select SYSTEM => UPGRADE.
6. Press TUNING encoder, the display will show "SEL.TOUPD"
7. Press TUNING encoder to start upgrade.(display will show some data while SW upgrade)
8. When DCR-10 displays "REBOOT" disconnect the power and then connect power again.

Check software version if correct:

1. In any band, press and hold TUNING/•MENU button.
2. Rotate TUNING encoder to select SYSTEM => SWVER. 3.The radio should display version number "VP02AU"
