See over page for detailed product information

VLM-6600

Full-motion TV Wall Mount

Features

Our new VLM-6600 is made from high-grade steel that delivers a lifetime of satisfaction. It can accommodate TVs up to 70kg in weight. In addition, it's able to tilt up and down from -15° to +2° and swivel up to 90° in either horizontal direction to find you the best position while watching TV. No more glare and no more eye strain, it will always be the centre of attention in any household.

A great feature of this unique mount is the ability to position the main part of the mount almost anywhere along the wall plate. This allows the TV/Mount combination to be placed almost millimetre perfect to a required position along your wall – regardless of where the wall studs are located.

Strong and Attractive. Heavy gauge steel construction is powder coated in an attractive black finish. The stylish and unobtrusive design fits easily into any environment.

Quality. The VLM-6600 Wall Mount is made from quality materials and is covered by a ten year warranty.

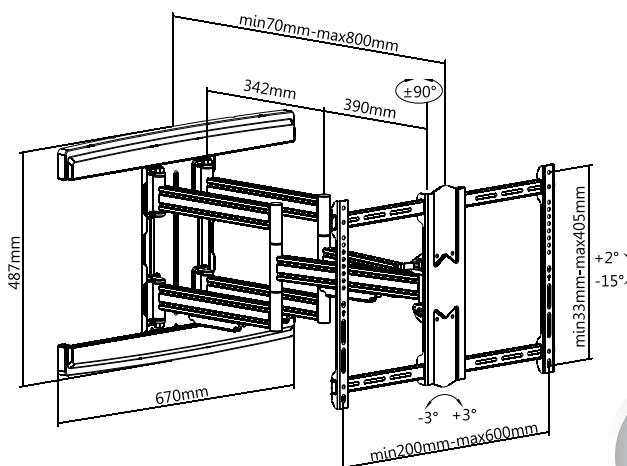

Package includes

Universal TV adaptor, tilt and turn bracket assembly, unique wall mounting plate, plastic trims, mounting hardware and assembly instructions.

Specifications
